Sun 4.3.: Departure or free day in Vienna

Things to bring along.

Please bring with you:

1) For our “European Plants Exchange”:

Bring your plants, seeds, cuttings to Vienna! You will meet the other project partners as gardeners, you can exchange your plants or seeds, and get precise information about best garden practices. So if you have a special plant which is typical for your region: Bring it along! [Some suggestions: Prunes d’ Agens / grapes from Germany 1, a Riesling maybe? –Schefflenz Asparagus from Germany 2, - Bodensee / Tomatoes from Konya / Cucumber from Cluj / Potatoes from Lithuania]. → But remember: We just want the plants, not the fruits! Because: A special offer from the Volkshochschule Alsergrund: If you leave your seeds here in Vienna, we will plant them in the VHS garden and we promise we will look very carefully after your plants. We cannot guarantee sending you the harvest! (Mostly because we would like to eat the fruits and vegetables ourselves).

2) For the “Market of Taste”:

There will be about 10 market stalls of food producers from Vienna and the surroundings who will present regional specialities and allow us to taste them. The focus will be on biological products, processed with traditional techniques, on a high level of quality and taste. Each project partner will have their own market stall. Please bring along some typical products from your region. Do not bring food industry products. We want you to focus on the mindful production and adoption of traditional techniques. Also products which you have made on your own are very welcome.

3) For our culinary get together on Friday evening:

We ask you to share the expense and to contribute Eur 10,- per person. We take care of regional dishes and the ambience. Please feel free to bring regional products besides.

Approximate costs of the visit in Vienna per person:

Hotel: cf. your booking

Evening meals and lunch: Eur 70,-

Guided culinary walk “Naschmarkt”: Eur 29,-

Ground transfer: Eur 14,-
